INTRODUCTION

SALVIS TRADING (PRIVATE) LIMITED herewith trading as **Extreme Fire Design Inc.** was officially incorporated under the Zimbabwean company Act (chapter 24:03) of the registrar of companies on 23 August 2012.

Extreme Fire Design Inc. is an innovative design, engineering and installation firm specializing in fire protection projects for power utility, industry, hospitality, Information technology, Health care, education sectors, Shopping Centers, (Shopping Malls) High Rising Buildings, Storage Facilities and Storage Racks, manufacturing factories, banks, commercial facilities and Aircraft. Complete Fire Design is at the forefront of fire engineering. The diverse experience, skills and qualifications of our people enable the company to provide a level of expertise, advice, solutions and customer service that is second to none.

Our VISION is to provide clients with reliable, cost effective Fire Protection and Water Systems, tailor-made for each specific project, is premised on the knowledge and vast experience of our technical team, linked to our ability to effectively utilise the latest available technology.

Our MISSION is to protect lives and property and to exceed the quality and service standards expected by our customers in today's competitive business environment. Our goal is to be acknowledged as the best provider of fire protection services, while striving for sound growth and profitability. quality assurance, budget efficiency and customer service.

BUSINESS

Extreme Fire Design Inc, is in the business of preventing the loss of life and preserving property where we live, work, shop and play. We achieve this by designing, installing, maintaining and servicing 100% effective fire detection and suppression systems. We will differentiate ourselves from our competition by leading our industry with new and innovative technology, superior engineering, quality workmanship, and extraordinary customer relationships. We will expand our role in our community by developing expertise in security and related systems. We are recognised in the industry as being dedicated to highest level of safety, reliability and effectiveness of special hazard fire suppression systems.

ETHICS

We demonstrate integrity, and we can be trusted. We always honor our word. Our relative professional status is irrelevant.

CUSTOMERS

Extreme Fire Design Inc, provides only the highest quality services and products. Our customers and vendors will know and rely on us as being the expert in our field. Extreme Fire Design Inc, will be the easiest contractor in the construction industry with which to work. We will strive constantly to improve our customer and vendor relationships. We will conduct ourselves with a level of professionalism that is unparalleled in our industry.

BUSINESS

- We deliver systems that are 100% effective in preventing loss of life.
- We don't cut corners.
- We do it right the first time. If we make a mistake, we fix it.
- We are expert in our industry, and have the reputation for being the best at what we do.
- We provide the best possible service to our customers.
- We install only quality products.
- We consistently work to beat budgets and improve profitability.
- We are cost conscious.
- We have a "can do" attitude.
- We pursue good contracts and know when to walk away from bad deals.
- We embrace cutting edge technology that keeps us ahead of our competitors.
- We don't guess

Design, fabrication, installation and commissioning of:

- Automatic Fire Sprinkler Systems and Pre- action Systems
- Fire Hydrant and Fire Hose reel Systems
- Deluge and Water Spray Systems
- Fire Detection Systems and Suppression Control
- Gas - Based Fire Suppression Systems
- Foam - Based Fire Suppression Systems
- Dry Chemical - Based Fire Suppression Systems
- Compact Fire Suppression Systems
- CCTV, Access Control and Intruder Alarm Security Systems
- Emergency Exit and Safety Evacuation Plans
- Smoke and Heat Venting System
- Computerized Full Hydraulic Calculations of various Fire Systems
- Existing Pipe Analysis
- Water Supply Adequacy Review
- Audits on existing Systems and Advice on any required upgrades
- Diesel and Electric Motor Driven Fire Pumps
- As Built Drawings on AutoCAD
- Water Mist Fire Suppression Systems for Generators, Power Transformers, Coal conveyors
- Emergency Lighting and Fire Safety Awareness Programs

SALES & MARKETING

Detailed site surveys, technical requirements, quotations and specifications for all types of fixed fire protection installation are offered free of charge.

SERVICES DEPARTMENT

A 24- hour service is part of the package that is offered to our clients. In addition, every erection team has a mobile phone to enable fast response to emergency calls. Extreme Fire Design Inc takes a great pride in being able to supply an emergency service within two hours of receiving a call. The service department is also responsible for alterations and extensions to existing systems, in addition to the annual servicing of fire and plumbing installations and the six monthly servicing of sprinkler control valves.

CAD DRAWING OFFICE

Our company's goals are to provide the highest degree of quality, service, speed and accuracy to meet the demands of an ever changing industry. We strive to have the latest in software and hardware to keep increasing our productivity levels. Excellence in AutoCAD superior design, quality of installation, reliable product and proficient service are our core deliverables meant to give the client the most comprehensive well coordinated services through the assistance of a content and satisfied work force is the key lever to achieving our goal. Our experienced design and engineering team has been instrumental in the successful planning, development and commissioning of fire protection engineering.

Additionally, our hands-on fire protection experts have provided a full array of safety and risk reduction services to safeguard buildings and aid facility operators. We foster collaborative efforts and partner with world-class industry leaders to offer complete solutions to client needs. Through our design, engineering and fire protection services, Extreme Fire Design Inc consistently provides exceptional value, integrity and client satisfaction. By using Computerized full hydraulic calculations, you have all the advantages of full hydraulic calculations in helping you reduce your pipe sizes and or the water demand and the calculations will not have the human error factor and will take a fraction of a second to calculate, allowing you the designer more time to optimize the system and reduce costs. Our Fire Pumps and fire storage water tanks are sized using computerised fully hydraulic calculation.

Our design philosophy is simple. Not only do we design your system to be compliant but we also make sure that the Fire Sprinkler System in your facility blends in as much as possible so as to avoid distracting from the architectural features of your building or office. Our design services provide complete accurate drawings including everything that is required for the reviewer, stocklist, and the installer. Our plans are fully dimensioned, contain overall cut lengths on grooved mains, main ID's and branch line ID's and hanger positions and cut lengths. We mention this because they are usually taken for granted and pipe fitters usually ends up with the headaches of trying to figure out these issues. The use of workshop pre-fabricated piping makes assembly time much quicker, as there is no need for welding or threading on site.

SAFETY, HEALTH & ENVIRONMENTAL POLICY

ORGANIZATION

Salvis Trading (Pvt) Ltd t/a [Extreme Fire Design Inc](#) is a fire sprinkler protection installer and maintenance company serving all facets of industries with regards to fire detection suppression and extinguishing systems.

POLICY STATEMENT

The Company is committed to providing a safe and healthy working environment for all its employees and members of the public. To ensure commitment, the company will comply to legal requirements in accordance OHSAS 18001:2007 with and company's health and safety management plan.

OBJECTIVES

To ensure achieving our objectives;

RE: Notice of Registration

You are hereby notified we have completed your registration and the details are as follows:

Registered name	SALVIS TRADING P/L
Trading name	
Business Partner Number (BPN)	200132252
Income Tax	30177446
PAYE ZMOR	-
Customs Duties ZMOR	-
Withholding Tax	
Value Added Tax on Local Sales	10065944
Effective Date of Registration(EDR)	01.01.2015 Cat A

Please be advised that your tax obligations are as follows:

INCOME TAX

Income tax rate is 25% Plus 3% AIDS levy giving an effective rate of 25.75% per annum payable in form of quarterly payment dates (QPDs) as follows:

DUE DATES

QPDs

1 st Quarter	25 March	10%
2 nd Quarter	25 June	25%
3 rd Quarter	25 September	30%
4 th Quarter	20 December	35%

Due dates for annual returns based on actual income statements are notified in the Government Gazette by the Commissioner.

PAYE Employers are required to withhold employees' tax on remuneration exceeding tax free threshold and submit return (form P2) and payments on or before the 10th day of every month after the month of withholding. Employee tax computations are done using tax tables available at Kurima House, Ground floor, Client Care Reception.

VAT Only registered operators can charge Value Added Tax (VAT). To be registered one must meet the minimum threshold of US \$60000 per annum. VAT payable and the return (form VAT 7) is due on or before the 25th day of every month following the end of the tax period (w e f 01/01/2012).

Withholding tax. Every registered taxpayer is obliged to withhold 10% on all payments aggregating to US \$250 or more made under contract to a payee without tax clearance (ITF 263). The tax withheld and the return (Rev 5) is due on or before the 10th of the month following that of withholding. Note that there is no need to withhold tax or requesting tax clearance on the following circumstances:

- Payment under contract of employment
- Sale in any shop in ordinary course of business in which case the seller is in business and the buyer is not.
- Payment to the state

NB. A] All payments after the due dates attract penalty and interest at prescribed rates.

B] You are required to submit returns on or before due dates even if you are not trading.

Yours faithfully

EFFECTS OF FIRE ON YOUR BUSINESS

Fire can have a devastating financial and emotional toll on small, medium and large businesses, destroying the livelihoods of owners and operators and those employed. Fire can impact a business in the following ways:

- major infrastructure and stock loss
- lost productivity
- financial losses
- fatalities and injuries
- loss of confidence from clients
- staff unemployment
- bankruptcy as a business fails to reopen

This can be avoided by installing suitable fire alarm systems and extinguishing systems. Site security is one of the most important factors in preventing arson. If your business is not secure, then it may become a target for the opportunistic arsonist. An arsonist can be motivated by many factors including business rivalry, spite/revenge, vandalism, crime concealment or financial reward. Fires can also start by accident and neglect, such as poor housekeeping, discarded cigarettes or unsafe work practices involving hot work equipment, chemicals and many other potential ignition sources.

A business owner or operator you have additional responsibilities including making sure appropriate evacuation plans are in place and practiced, exit paths are clearly marked and clear of obstructions and suitable fire detection or containment equipment is installed and maintained. business continuity is the global term given to the practice by which organisations identify potential threats (risk) and consequently build a framework of resilience and effective response (intervention), which safeguards the interest of the stakeholders.
