INTRODUCTION

SALVIS TRADING (PRIVATE) LIMITED herewith trading as Extreme Fire Design Inc. was officially incorporated under the Zimbabwean company Act (chapter 24:03) of the registrar of companies on 23 August 2012. **Extreme Fire Design Inc.** is an innovative design, engineering and installation firm specialising in fire protection projects for power utility, industry, hospitality, information technology, Healthcare & education sectors, Shopping Malls, High Rising Buildings, Storage Facilities and Storage Racks, Factories, Banks.

Complete Fire Design is at the forefront of fire engineering. The diverse experience, skills and qualifications of our people enable the company to provide a level of expertise, advice, solutions and customer service that is second to none.

We at Extreme Fire Design Inc take pride in our reputation, technical expertise and business excellence.

We are proud to be associated with some of the leading companies in the region and to have provided totally integrated fire and security solutions to some of the most prestigious or important developments in Zimbabwe over the years.

Our VISION is to provide clients with reliable, cost effective Fire Protection and Water Systems, tailor-made for each specific project, is premised on the knowledge and vast experience of our technical team, linked to our ability to effectively utilise the latest available technology.

Our MISSION is to protect lives and property and to exceed the quality and service standards expected by our customers in today's competitive business environment. Our goal is to be acknowledged as the best provider of fire protection services, while striving for sound growth and profitability quality assurance, budget efficiency and customer service.

BUSINESS

BUSINESS

Extreme Fire Design Inc, is in the business of preventing the loss of life and preserving property where we live, work, shop and play. We achieve this by designing, installing, maintaining and servicing 100% effective fire detection and suppression systems. We will differentiate ourselves from our competition by leading our industry with new and innovative technology, superior engineering, quality workmanship, and extraordinary customer relationships.

We will expand our role in our community by developing expertise in security and related systems. We are recognised in the industry as being dedicated to highest level of safety, reliability and effectiveness of special hazard fire suppression systems.

ETHICS

We demonstrate integrity, and we can be trusted.
We always honor our word. Our relative professional status is irrelevant.

CUSTOMERS

Extreme Fire Design Inc, provides only the highest quality services and products. Our customers and vendors will know and rely on us as being the expert in our field. Extreme Fire Design Inc, will be the easiest contractor in the construction industry with which to work. We will strive constantly to improve our customer and vendor relationships. We will conduct ourselves with a level of professionalism that is unparalleled in our industry.

BUSINESS DELIVERABLES

- We deliver systems that are 100% effective in preventing loss of life.
- We don't cut corners.
- We do it right the first time. If we make a mistake, we fix it.
- We are experts in our industry and have the reputation for being the best at what we do.
- We install only quality products.
- We consistently work to beat budgets and improve profitability.
- We are cost conscious.
- We embrace cutting edge technology that keeps us ahead of our competitors.

SERVICES

Design, fabrication, installation and commissioning of:

- Automatic Fire Sprinkler Systems and Pre- action Systems
- Fire Hydrant and Fire Hose reel Systems
- Deluge and Water Spray Systems
- Fire Detection Systems and Suppression Control
- Gas - Based Fire Suppression Systems
- Foam - Based Fire Suppression Systems
- Dry Chemical - Based Fire Suppression Systems
- Compact Fire Suppression Systems
- Emergency Exit and Safety Graphics
- Smoke and Heat Venting System
- Computerized Full Hydraulic Calculations of various Fire Systems
- Existing Pipe Analysis• Water Supply Adequacy Review
- Audits on existing Systems and Advice on any required upgrades
- Diesel and Electric Motor Driven Fire Pumps
- As Built Drawings on AutoCAD
- Water Mist Fire Suppression Systems for Generators, Power Transformers, Coal
- Conveyors, Switchgear buildings, Administrative building, Cable Tunnels, Turbine
- Houses, and Boiler houses.

SALES & MARKETING

Detailed site surveys, technical requirements, quotations and specifications for all types of fixed fire protection installation are offered free of charge.

SERVICES DEPARTMENT

A 24- hour service is part of the package that is offered to our clients. In addition, every erection team has a mobile phone to enable fast response to emergency calls. Extreme Fire Design Inc takes a great pride in being able to supply an emergency service within two hours of receiving a call. The service department is also responsible for alterations and extensions to existing systems, in addition to the annual servicing of fire and plumbing installations and the six monthly servicing of sprinkler control valves.

SERVICES

CAD DRAWING OFFICE

Our company's goals are to provide the highest degree of quality, service, speed and accuracy to meet the demands of an ever changing industry. We strive to have the latest in software and hardware to keep increasing our productivity levels. Excellence in AutoCAD superior design, quality of installation, reliable product and proficient service are our core deliverables meant to give the client the most comprehensive well coordinated services through the assistance of a content and satisfied work force is the key lever to achieving our goal. Our experienced design and engineering team has been instrumental in the successful planning, development and commissioning of fire protection engineering.

Additionally, our hands-on fire protection experts have provided a full array of safety and risk reduction services to safeguard buildings and aid facility operators. We foster collaborative efforts and partner with world-class industry leaders to offer complete solutions to client needs. Through our design, engineering and fire protection services, Extreme Fire Design Inc consistently provides exceptional value, integrity and client satisfaction. By using Computerized full hydraulic calculations, you have all the advantages of full hydraulic calculations in helping you reduce your pipe sizes and or the water demand and the calculations will not have the human error factor and will take a fraction of a second to calculate, allowing you the designer more time to optimize the system and reduce costs. Our Fire Pumps and fire storage water tanks are sized using computerised fully hydraulic calculation. Our design philosophy is simple. Not only do we design your system to be compliant but we also make sure that the Fire Sprinkler System in your facility blends in as much as possible so as to avoid distracting from the architectural features of your building or office. Our design services provide complete accurate drawings including everything that is required for the reviewer, stocklist, and the installer. Our plans are fully dimensioned, contain overall cut lengths on grooved mains, main ID's and branch line ID's and hanger positions and cut lengths. We mention this because they are usually taken for granted and pipe fitters usually end up with the headaches of trying to figure out these issues. The use of workshop pre-fabricated piping makes assembly time much quicker, as there is no need for welding or threading on site.

SHEQ POLICY

ORGANISATION

Salvis Trading (Pvt) Ltd Extreme Fire Design Inc t/a is a fire sprinkler protection installer and maintenance company serving all facets of industries with regards to fire detection suppression and extinguishing Systems.

POLICY STATEMENT

The Company is committed to providing a safe and healthy working environment for all its employees and members of the public. To ensure commitment, the company will comply to legal requirements in accordance OHSAS 18001:2007 with and company's health and safety management plan.

 - Supervisors and management are responsible to make sure that these objectives are achieved.
- All employees are to take care of their own health and safety and that of other persons who may be affected by their acts or omissions.

CERTIFICATE OF REGISTRATION OF FACTORY

Certificate Number 10136 by NSSA (National Social Security Authority)

TEAM

SKEWARD MWINEYA - Managing Director

With a Diploma in Draughting and Design Technology (Mechanical Engineering) with a total of 28 years hands on experience as a Draughtsman and Contracts Manager in Zimbabwe, Tanzania, Zambia, Ghana, Rwanda and South Africa.

Excellent knowledge in:-

- AutoCAD 2018LT
- 2018 Revit MEP
- Microsoft Projects
- Excellent in Manual Hydraulic Full Hydraulic Calculations and Fire Pump Sizing
- SPRINK and SprinkCad– (Computerized full hydraulics calculation softwares)

NCEBISI NDLOVU – Contracts Manager

With a Bachelor of Technology (Honors) in Industrial Manufacturing Engineering) is a creative, innovative, dynamic and analytical individual with effective team membership, problem solving and communication skills bearing diverse technical experience; acquired in the academic and practical fields of manufacturing, steel fabrication and SHEQ..

He also has a National Certificate in Machinshop Engineering (HEXCO) from Bulawayo Polytechnic College. Integrated Internal Auditor Training Course

(DAS Management Systems Zimbabwe) - (ISO 9001: 2008 - (ISO 14001; 2004)

- (ISO 18001: 2007)

OSHEMAC (Occupational Safety, Health and Environmental Management Course) (NSSA)

SANDRA MHUNGU - Administration Manager

With a Diploma in General Management (EDGM) 2007 and vast experience in Operations Management , Administration, Human Resources and Customer Management.

TEAM

VUSUMUZI B.NDHLOVU - PART TIME SAFETY ADVISOR

- Construction Drafting Diploma.
- Drafting Instructor in the Corps of Engineers.
- Fire Sprinkler Design Draftsman.
- Safety Officer/ Safety Advisor/Safety Trainer/ Safety Inspector.
- Internal QMS Auditor.

PERSONAL DEVELOPMENT TRAINING

1. INTRODUCTION TO FORENSIC SCIENCE (COURSERA) July 2014.
2. ASSESSOR TRAINING- 115753 STANDARD. (Colleen Osorio Consultancy) June 2012 .
3. TRAIN THE TRAINER (Spearhead Training, Dubai) 2008.

PROFESSIONAL TRAINING (1986)

1. CONSTRUCTION DRAFTING DIPLOMA (Defense Mapping School, West Virginia (USA)
2. ADVANCED INSTRUCTIONAL TECHNIQUES (Engineer School, West Virginia (USA)

ISO MANAGEMENT SYSTEM TRAINING

1. ISO 9001:2000 QMS INTERNAL AUDITOR COURSE. (BSI, Dubai) 2006
2. ISO 14001:2004 AWARENESS COURSE. (G-Platinum Petroserve Ltd) 2015

MEMBERSHIP TO PROFESSIONAL BODIES

1. Technical Member- SAIOSH Membership number 41057841.
2. SACPCMP- Confirmation letter available.

TEAM

VUSUMUZI B.NDHLOVU - PART TIME SAFETY ADVISOR

1. **NEBOSH** - INTERNATIONAL GENERAL CERTIFICATE (National Examination Board of Safety and Health - United Kingdom) 2007
2. SAMTRAC (SAFETY MANAGEMENT TRAINING COURSE - NOSA (South Africa) 2005
3. SHEMTRAC (Safety Health Environmental Management Training , South Africa)
- MEDICAL FIRST AID (SACG Cape Town, South Africa, May 2015,STCW CODE A-V1/1-3)

CERTIFICATES AND TRAINING DETAILS

1. MARINE FIRE FIGHTING & FIRE PREVENTION
(SACG Cape Town, South Africa, May 2015,STCW 95 CODE V1-1/2)
2. **FIRE TRAINING COURSE.** (Britain Defense, Dubai) 2006
3. **RIGGING AND SLINGING TRAINING COURSE.** (Britain Defense, Dubai) 2006

RE: Notice of Registration

You are hereby notified we have completed your registration and the details are as follows:

Registered name	SALVIS TRADING P/L
Trading name	
Business Partner Number (BPN)	200132252
Income Tax	30177446
PAYE ZMOR	-
Customs Duties ZMOR	-
Withholding Tax	
Value Added Tax on Local Sales	10065944
Effective Date of Registration(EDR)	01.01.2015 Cat A

Please be advised that your tax obligations are as follows:

INCOME TAX

Income tax rate is 25% Plus 3% AIDS levy giving an effective rate of 25.75% per annum payable in form of quarterly payment dates (QPDs) as follows:

DUE DATES

QPDs

1 st Quarter	25 March	10%
2 nd Quarter	25 June	25%
3 rd Quarter	25 September	30%
4 th Quarter	20 December	35%

Due dates for annual returns based on actual income statements are notified in the Government Gazette by the Commissioner.

PAYE Employers are required to withhold employees' tax on remuneration exceeding tax free threshold and submit return (form P2) and payments on or before the 10TH day of every month after the month of withholding. Employee tax computations are done using tax tables available at Kurima House, Ground floor, Client Care Reception.

VAT Only registered operators can charge Value Added Tax (VAT). To be registered one must meet the minimum threshold of US \$60000 per annum. VAT payable and the return (form VAT 7) is due on or before the 25th day of every month following the end of the tax period (w e f 01/01/2012).

Withholding tax. Every registered taxpayer is obliged to withhold 10% on all payments aggregating to US \$250 or more made under contract to a payee without tax clearance (ITF 263). The tax withheld and the return (Rev 5) is due on or before the 10th of the month following that of withholding. Note that there is no need to withhold tax or requesting tax clearance on the following circumstances:

- Payment under contract of employment
- Sale in any shop in ordinary course of business in which case the seller is in business and the buyer is not.
- Payment to the state

NB. A] All payments after the due dates attract penalty and interest at prescribed rates.

B] You are required to submit returns on or before due dates even if you are not trading.

Yours faithfully

Contract Value = **USD \$ 434 793.06**
Contract Duration = 3 months Completed in May 2018

Old Mutual Eastgate SMES Mall - Automatic Fire Sprinklers System with Pumps
Contract Value = **USD \$ 481 095.23**
Contract Duration = 5 Months Completed Mid June 2018

Chibuku Breweries - Chitungwiza - Automatic Fire Sprinkler System with Pumps
Contract Value = **USD \$ 557 791.51**
Contract Duration = 4 Months First Phase finishing end of June 2018

MD'S MESSAGE

Some factory owners view fire protection systems as a cost without a direct return on Investment, unless they have experienced a previous fire event or truly understand the associated risks.

Cultural property management is entrusted with the responsibility of protecting and preserving an institution's buildings, collections, operations and occupants. Constant attention is required to minimize adverse impact due to climate, pollution, theft, vandalism, insects, rain and fire. Because of the speed and totality of the destructive forces of fire, it constitutes one of the more serious threats.

Vandalized or environmentally damaged structures can be repaired and stolen objects recovered. Items destroyed by fire, however, are gone forever. An uncontrolled fire can obliterate an entire room's contents within a few minutes and completely burn out a building in a couple hours.

Compliance of the rules will not only obtain appropriate discount in the fire insurance premium but will also instill a feeling of security that the presence of efficient fire-fighting equipment should engender. The direct loss from fire and resultant wastage is always serious but the indirect loss and the resultant dislocation of business is often much more serious.

A major fire can quickly bring a business to a standstill with loss of lives, loss of goods, equipment, and building damage, smoke damage, loss of reputation, loss of customers due to business standstill and subsequent downtime are just some of the outcomes when fires are not quickly contained. Regaining your cliental base can be a real nightmare even if the insurance has paid. With the right solutions in place, the risk of minor mishaps or serious incidents can be averted or reduced. Planning for fire protection involves an integrated approach in which system designers need to analyse building components as a total package. In most cases, the analysis needs to go beyond basic code compliance and the owner's minimum legal responsibilities for providing adequate fire protection.

For an adequate and efficient fire protection system the design and installation of the system should be based on sound engineering principles, test data, and field experience.

Thank you and we hope to have a wonderful business partnership with us ahead.
